Special to The World.
MUSKOGEE, Nov. 17.—M. R. Armstrong, former revenue collector in United States district of Arkansas, was found in his room at a hotel here today with a bullet in his heart. Armstrong resigned as deputy United States revenue agent at Fort Smith a year ago and removed to Muskogee, where he purchased a grocery business. He also acquired an interest in a Tulsa store, which he still owned at the time of his death. He is survived by a daughter and by Mrs. M. R. Armstrong, formerly his wife. MAYOR HUBBARD TO TALK AT CITY MEET

Financial Difficulties of Municipality
to Be Thoroughly
Discussed.

Special to The World.
NORMAN, Nov. 17.—Almost all major problems with which city governments must cope will be discussed at sixth annual convention of the Oklahoma Municipal league, to be held November 23 and 29, at the city hall.

The program is announced by F. E. Blachly, secretary-treasurer of the league, and associate professor of government, University of Oklahoma. Financial matters and legislation affecting cities probably are the most important of these problems. Nearly every city and town in the state is attempting to get more money with which to meet expenses of municipal government. Both Mayor Hubbard and City Attorney Marshall of Tulsa will appear on the program.

A membership campaign is now being conducted in an effort to line up every incorporated city and town in the state as a member. The league now has 35 members, six more than last year. Few cities of more than 2,000 population are not members.

40 Years on the Job

I put in 40 years as a practical druggist (now in my 47th year) and compounder of prescriptions before I put Number 40 for The Blood on the market and at this late date in life I would not recommend a medicine that I did not believe was equal or superior to any other. I have observed the effect of Number 40 in thousands of cases and use it universally in my own family for blood troubles in any form. For constipation, biliousness, stomach and liver troubles. For chronic rheumatism, catarrh, eczema and all skin troubles. There is more Number 40 sold and used in this vicinity than all other blood medicines combined. J. C. Mendenhall, Evansville, Ind. STOCKHOLDERS MAY RUN PICHER BANK

Examiner Takes Charge; Depositors
Still Wondering What They
Will Get.

Special to The World.
PICHER, Nov. 17.—With Bank Examiner Stephen L. New in charge at the First National bank which closed its doors Saturday morning, it was hinted that the bank may open Tuesday.

No definite statement from the directors was forthcoming, however, and depositors were still in a quandary. "By resolution of the board of directors the bank has placed in the hands of the examiner pending a reorganization of its affairs," read a notice posted on the front door today. The stockholders are said to be liable for double the amount of their capital stock and have faced two assessments lately. The first for 18 per cent which was paid in and the second for 48 per cent, which would yet leave an assessment of 34 per cent possible against stockholders in the protection of the depositors. Lloyd A. Dault, attorney, who with the firm of Bennett & Wilson, of Miami, has been representing the bank in collection matters, expressed the belief that much of the paper held by the bank which was considered of small value by the bank examiner, would be collected and that the depositors would not suffer any loss.

EXPLODING DYNAMITE INJURES TWO OIL MEN

Special to The World.
FAWUOKA, Nov. 17.—While laying a pipe line for water to well No. 3 in 2-25-9, H. Black and Lewis Bernhart, employees of the Maryland Oil company, were fearfully injured in a dynamite explosion. The men had just four charges in their hole. One charge failed to explode and they went to investigate. Black picked some dirt into the hole where the dynamite lay and the act caused it to explode. Both men are in a serious condition at the Miller hospital here.

TWO GOVERNORS TO DISCUSS RED RIVER

Robertson and Hobby to Try and
Bring About Settlement of
Controversy.

OKLAHOMA CITY, Nov. 17.—In an effort to arrive at an amicable temporary settlement of the Red river controversy, Gov. J. B. A. Robertson of Oklahoma, Gov. William P. Hobby of Texas, the attorney general of Oklahoma and Texas, and Judge Chain Jones of Waurika, whose authority in the receivership suit is disputed, as well as others interested, will hold a conference in the westbrook hotel at Fort Worth Thursday.

Judge Jones was in conference Saturday with Governor Robertson over the boundary dispute. He is determined to enforce the orders of his court, but denied that he said that this would be done if it required

every man in Oklahoma to carry out his directions.

Attorney General Freeling has filed a suit in the United States supreme court to bring about a judicial settlement of the boundary dispute. The south bank of Red river, according to the Oklahoma claimants, has always been considered the boundary between Oklahoma and Texas. Papers were taken out by Oklahoma investors and a well drilled in the river bed upon a lease given by the state school land commission. When oil was found, Texas, who claimed the area under a Texas lease, took possession. Judge Jones issued an order appointing a receiver for the property and when the receiver attempted to take possession he also was driven away.

"Have you much of a police force in this village?" asked the city man in the country.

"We certainly have," replied the native. "He weighs 250 pounds."

SCHOOL LEVY WOULD BE MADE 20 MILLS

Educational Association Proposes
Amendment to the Oklahoma
Constitution.

NORMAN, Nov. 15.—Financial affairs to the exclusion of almost all other educational matters will occupy the attention of the Oklahoma Educational association in 1920, according to a program outlined by A. C. Parsons, president, who is professor of educational administration, University of Oklahoma.

More pay for teachers, more building to relieve crowded conditions in all towns and cities, and more money for equipment and maintenance are stressed.

Three ways have been proposed

whereby the 6,000 members of the association hope to accomplish this program:

A constitutional amendment changing the maximum tax levy for local school purposes from 15 to 20 mills.

Legislation providing that when a school district votes a levy greater than the maximum it shall stand until repealed by a vote of the district.

Legislation providing a statewide levy on all taxable property for local school purposes.

These proposals will be considered at each of six district conventions to be held during Thanksgiving holidays. They will be threshed out and a definite program adopted at the state convention February 19-21 at Oklahoma City.
